If you have light brown hair or blonde hair, pastel colors will be shown brilliantly and will be shown just as they show in the photos. But if you have dark hair that is black or even dark brown, these colors also do not show up and do not resemble images. You will have to try darker colors that will be shown. We always recommend going to a salon to try styles like these because you can end up with a mess if you do it yourself and a mistake is made. Color correction is very expensive. 5.
